CUT FLOWER GROWERS, DO NOT MISS THE SPECIAL OFFER LATER IN THIS CATALOG.

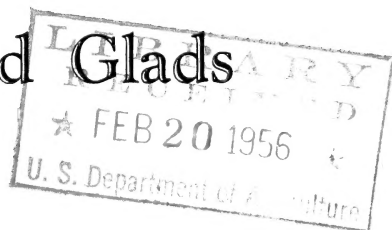

Dear Patrons and other Glad Fanciers:

My first year since retirement has been a rather disappointing one.. Because of the severe and prolonged drought I could not exhibit at several of the larger nearby shows. But several weeks after the rains came in August, I had wonderful blooms and I dug a fine lot of corms in the fall.

My 1956 Introductions as well as those of the preceding four years have all been highly commended by one or more Gladiolus Experts. I have introduced quite a few medium (3xx) Glads because I believe this size will become much more popular in the next few years. They are ideal for the average garden and home for they do not require the watering, fertilizing and staking that the large ones do to produce nice spikes and they are not difficult to arrange in the home. Also the medium classes now offer the easiest chances of winning Show Ribbons.

It is my general policy to introduce new varieties at moderate prices and to keep these prices for two years. My Glads are State Inspected and are guaranteed to be healthy and true to name.

Since I do not put out an expensive Catalog I think I can give you better bulb values.
